## The Shuffle Effect

This afternoon, the traditional pre-determined, printed program is replaced with an iPod containing the group's repertoire. The program for the concert is determined live from the stage, as the players press *shuffle* on their iPod and play whatever pieces show up on the screen.

Be prepared for anything «» from Radiohead to Mozart, The Shuffle Effect allows the musicians to showcase their skill, innovation and vibrancy.

## There Will Be One Intermission

During which you can replenish drinks, order food and hob-nob

## Special Note . . .

SYBARITE5 has a Kickstarter campaign aiming to raise funds for their "play in 50 states" campaign «» your support will help them reach their goal. As a big thank you for your generosity, they're offering rewards from digital downloads to backstage passes and drinks with the band.
