

About the 5G Installation
Time and Refraction
and artist **David Cudney**

This installation was created specifically to accompany the performance of Morton Feldman's *Piano and String Quartet*.

The Environment explores the concepts of stillness and reflection through movement, refraction and the distortion of perceived time.

The entropy of a three-dimensional object translated into two-dimensional information.

David Cudney is an Installation Assemblage Artist with a focus on water and kinetic sculpture. Cudney's work at The Factory On 5th and The Kosmos include many collaborative pieces with **Jerry Miller**, Director of the "Factory".

The three performances of

PART TWO of SLOW DOWN, ALBUQUERQUE . . .

Piano and String Quartet

Morton Feldman (1926–1987)

Written two years before his death in 1987, Morton Feldman's *Piano and String Quartet* is a shimmering, pristine musical event. Contrasting widely-spaced piano arpeggios with extended string chords, Feldman allows lingering sounds from either the piano or the strings to haze over many of the piece's near-silences. Running time is approximately 80 minutes.

David Felberg violin
Megan Holland violin
Elzbieta Weyman viola
Joel Beckett cello
Conor Hanick piano
